- **Are you interested in pursuing a Known, Semi-Known, Identity-Release, or De-Identified match with your donor?: Known or Semi-Known.**
- **What qualities are most important to you in an egg donor?: We're hoping to find an egg donor who values education and health, and who enjoys life! We would also love if our egg donor had similar physical attributes as us, and has – or is in the process of getting – a college degree.**
- **What, if anything, do you plan to tell the child(ren) about the donor?: We plan to tell our child(ren) that we were struggling to have children, and want them so badly that we asked for help from a very kind woman. This woman offered to help us have you by donating her eggs so that mommy could get pregnant and have you!**
- **If your child wishes to meet the donor in the future, how would you feel?: We hope to maintain a relationship with our donor, so we would love if our child wanted to meet her!**
- **Please use the space below to write a letter to your egg donor.: Hi there! We're Natalie and Josh and we're looking for an amazing egg donor, like yourself, to complete our family! A little bit more about us... We met at Columbia University in 2009 and we've been together ever since! In 2012 we moved to California for work but found ourselves back in the heart of Manhattan in 2017 ready to start a family. After getting married and moving back to New York, we started to try having kids on our own. After two years, 6 unsuccessful cycles, one surgery and putting Natalie's body through so much, our doctor advised us that an egg donor could help us have the family we'd been trying for. We're so excited for the opportunity to become parents. We're looking for a donor who shares the same values that we do, is family-oriented, leads a healthy lifestyle and would like a relationship with us.**
- **If comfortable, please share some photos so the donor can put a face to your words:**
